WELCOME

Dear Triathletes,

I am very happy that next year we can host you in Poznań at such a prestigious and at the same time demanding event as IRONMAN. A large group of participants and fans confirms that it is an important event in the capital of Greater Poland, which arouses great interest among the inhabitants.

It is hardly surprising that in Poznań so much attention is paid to triathlon events. It was here, specifically at Kierskie Lake, that the first competitions in this sport in Poland were held and this interest continues to this day. You will certainly be able to feel them both at the start and at the finish line, as well as along the entire route of the competition.

It is extremely important to encourage physical activity of children for whom accompanying events have been prepared by the organisers. Thanks to them, instilling the spirit of sports competition in the youngest should be much easier.

I wish you many great experiences and achieving the results you dreamed of during this event. I hope that you will leave Poznań satisfied and will be happy to return to our city in the coming years.

Jacek Jaśkowiak

Prezydent Miasta Poznań

The background of the entire page is a solid blue color. Overlaid on this background is a dense, repeating pattern of white line-art icons representing various sports. These icons include figures running, jumping, cycling, playing tennis, and other athletic activities. The icons are arranged in a somewhat chaotic but rhythmic pattern, creating a sense of movement and energy.

WELCOME

Enea is the energy for triathlon!

Dear Sirs and Madams,

We are thrilled to welcome you to the second edition of Enea IRONMAN 70.3 Poznań event. Enea Group has been supporting Polish triathlon for nearly a decade. We are especially delighted that since last year, the IRONMAN series has also been present in the Poznań region. This is where our Group is headquartered, and it's also where the history of Polish triathlon began, with the Kiekrz event in 1984. On the same grounds, hundreds of triathletes will gather for the start on Sunday, with the finish line awaiting them in the heart of the city.

For years, Enea has been building the recognition of triathlon—a demanding yet highly rewarding discipline that brings forth a lot of emotions and joy. We have been a longstanding sponsor of numerous major and significant triathlon events in the country. However, we haven't stopped there. This July, we announced a future collaboration with the Polish Triathlon Association to further support the development of the sport and the sporting achievements of Polish athletes in both national and international competitions.

As one of the largest energy conglomerates in Poland, our company is also co-responsible for the country's energy security. As is customary each year, we have prepared numerous attractions for athletes and spectators visiting Poznań, which will be waiting at the finish line

I wish all participants successful starts and enjoyable, sporting fun!

WELCOME

Athletes,

The Enea IRONMAN 70.3 Poznań race marks the conclusion of the IRONMAN Poland 2024 series. After the excitement in Warsaw and Gdynia, it's now time for the capital of Wielkopolska. Poznań is a city with significant sporting traditions. At Lake Kierskie, where our races kick off, the first-ever triathlon event in Poland took place in 1984. Next year, we'll be joyously celebrating 40 years of triathlon existence in Poland right here in Poznań.

We hope that participating in the Enea IRONMAN 70.3 Poznań will provide you with an abundance of positive emotions, and the memories will stay with you for a lifetime. While in Poznań, we encourage you to explore the city, which has much to offer tourists. We particularly recommend trying the "rogale świętomarcińskie" pastries, which will also be available in the Finisher's Zone.

The Enea IRONMAN 70.3 Poznań is an event that involves the dedication of many individuals. From this platform, I would like to extend gratitude to everyone without whom this event could not take place. Our partners and sponsors, particularly Enea, International Poznań Trade Fairs, and the City of Poznań. All volunteers who are the heart of this event. The police and municipal guards for their assistance in securing the course and ensuring the safety of Enea IRONMAN 70.3 Poznań participants. I would also like to express our thanks to you, the athletes, for the trust you bestow upon us and for choosing our event.

The Enea IRONMAN 70.3 Poznań also features an array of accompanying events. I invite you to participate in the Night Run, a new addition to the event program. All children are welcome to the Kids Run. And for the spectators, we invite you to the IRONMAN Poland Expo and the Enea Family Zone at the International Poznań Trade Fairs. Admission is free, and we've prepared numerous attractions and gadgets for enthusiastic cheering.

With sporting regards,

Michał Drelich

5 PLACES TO VISIT

SEE THE BILLY GOATS AT NOON

In the central part of the Old Market Square stands the most beautiful Renaissance town hall north of the Alps. In 1551, a clock with two goats was installed on the town hall. Every day, when the clock strikes twelve noon, the doors in the little tower above the clock open, revealing two goats. Mechanically moved by the clock mechanism, the goats butt their horns 12 times.

CATHEDRAL IN THE CATHEDRAL ISLAND

In the underground of Poznań's cathedral church you can see the relics of the first Polish cathedral from the 10th century, the tombs of Poland's first rulers - Mieszko I and Bolesław the Brave as well as a supposed baptistery from 966. Next to the cathedral, a state-of-the-art interactive Heritage Center of Cathedral Island "Brama Poznania" was built.

ST MARTIN'S CROISSANT

A St Martin's Croissant is made with semi-puff pastry and white poppy-seed. Today it has become one of the most famous Polish pastries, protected by the European Union Certificate of Authenticity, which only allows for its production here in Wielkopolska, under strict instructions.

FORMER IMPERIAL CASTLE

The former Imperial Castle is the last and youngest monarchical residence in Europe, created at the beginning of the 20th century for German Emperor Wilhelm II. After WW1, the Zamek (Castle) housed among others the Mathematical Department of the Poznań Univeristy, whose alumni broke the code of the German ciphering machine - Enigma. Zamek is a cultural facility, with many exhibitions, a cinema and a children's animation theater.

CITADEL PARK

The Poznań's largest urban Citadel park is located in the center of the city, on the remains of a former Prussian fortress. Until the 19th century it was a hill with a picturesquely located village of Winiary and afterwards it had been transformed into a massive fort. After WW2 it became an urban park. A huge meadow in the middle of the park is a place of various events and music concerts

(non-wetsuit legal swims only)

Swimwear must be 100% textile material. Simply put, this would generally refer to suits made only from nylon or Lycra that do not have any rubberized material such as polyurethane or neoprene. Swimwear must not cover the neck, extend past the elbow, nor extend past the knees. Swimwear may contain a zipper. A race kit may be worn underneath swimwear.

ALL RULES CAN BE FOUND IN THE EVENT RULES AND REGULATIONS ON THE EVENT WEBSITE

AN OPEN-WATER SWIM IN A TRIATHLON IS SUBSTANTIALLY DIFFERENT FROM SWIMMING IN A POOL. TO ALLEVIATE STRESS, IT'S IMPORTANT THAT YOU ARRIVE ON RACE DAY HEALTHY, FIT AND PREPARED.

HERE'S A TOP-10 CHECKLIST TO HELP GET YOU READY.

1. PREPARE FOR RACE CONDITIONS

Race day should not be your first open water swim. Make sure some of your training replicates real race conditions, including water temperature, proximity to other swimmers, orientation (includes water clarity, depth and distance perception), and wearing a wetsuit if needed.

2. RACE IN OTHER EVENTS

Proper training is the best way to reduce anxiety. It's also a good idea to race shorter distance triathlons, as well as join clinics and club activities to prepare yourself for open water conditions.

3. LEARN ABOUT COURSE DETAILS

It's important to prepare yourself mentally as well as physically prior to race day. Thoroughly review the race website, event athlete guide and pre-race communication to familiarize yourself with the course.

Keep in mind that every body of water is different. Study the event schedule to plan for optimal arrival and preparation.

4. ENSURE HEALTH

As an athlete in training, you should take the proper steps to assess your health with your physician. Wherever you live, we recommend you consult with your physician before you race.

5. PAY ATTENTION TO WARNING SIGNS

While training, if you experience chest pain or discomfort, shortness of breath, light-headedness (dizziness) or blacking out, or have any other medical concerns or symptoms, consult your doctor immediately..

6. DON'T USE NEW GEAR ON RACE DAY

Focus on controlling as many factors as you can on race day. You should never race in equipment you haven't trained in, this is not the time to test new gear.

Make sure your wetsuit fits properly and that your goggles, swim cap and other accessories work properly. Prepare for the unexpected with backups of all your gear.

7. WARM UP ON RACE DAY

Arrive early enough on race day for an adequate warm-up prior to start.

Spend between 5 and 10 minutes loosening up your muscles with arm swings and other gentle movements. A light jog or brisk walk can also help increase circulation and prepare your body to race.

8. CHECK OUT THE COURSE

Get comfortable with the course by checking out water conditions, the swim entry and exit layouts, as well as turn buoy colors and locations..

9. START EASY – RELAX AND BREATHE

Follow the race day instructions regarding the swim start format that have been provided in the event athlete guide. For events with a rolling swim start, don't overestimate your ability. Please line up in the appropriate position according to your estimated swim completion time.. Don't race at maximum effort from the start - ease into your swim.

Relax and focus on your breathing as you settle into a sustainable place.

10. BE ALERT AND ASK FOR HELP

In a race setting always stop at the first sign of a medical problem.

The IRONMAN Competition Rules allow for competitors to stop or rest at any time during the swim.

If you or a fellow athlete needs help, raise your hand to alert a lifeguard or safety boat.

Feel free to hold on to a static object like a kayak or buoy. As long as you don't use it to move forward, you won't face disqualification.

TRANSITION ZONE

TRANSITION ZONE - SWIM TO BIKE

After exiting the water, you will run to the Transition Zone, where you will change into your bike gear and prepare for the bike course.

Upon entering the Transition Zone, you must pick up your **BLUE BAG** with your bike gear from the designated bag rack and proceed to change inside the designated tent.

After completing the change, pack your wetsuit and other swim gear into **BLUE BAG** and place the bag in the drop-off zone.

In the case of relays, the cyclist should wait for the teammate finishing the bike leg at the bike rack in the Transition Zone. The handover of the "baton" will take place by tapping hands.

Before the race, your cycling shoes should either be inside the **BLUE BAG** or securely attached to your bike.

Please note that before removing the bike from its place at the bike rack, you need to have the chinstrap of your helmet securely fastened. The chinstrap must be always fastened when the athlete is in contact with the bike. Failure to do so may cause a penalty from one of the race marshals.

You must cross the bike mount line before mounting your bike. The line will be clearly marked and is located when exiting the Transition Zone.

Please note that there will be changing tents. You can use a poncho towel to change if you want too. Nudity is prohibited.

TRANSITION ZONE

TRANSITION ZONE - BIKE TO RUN

Heading into Transition Zone, you will dismount your bike at the bike dismount line, take your bike back to your bike rack where you will rack your own bike.

You will then pick up your **RED BAG** and sit down on the benches where you change into your running apparel.

You need to put all your bike gear into the bag, including your bike helmet, Bike shoes must either stay on the bike pedals or be placed in the **RED BAG**. After completing your change, you will need to pack your gear in the **RED BAG** and then rack it back on the rack, in the same place you took it from (marked with your number). Then when ready, you head out of the transition zone and start the run.

In the case of relays, the runner should wait for the cyclist at the bike rack in the Transition Zone. The "baton" exchange will take place by tapping hands.

After finishing the race, your **BLUE BAG** and **RED BAG** can be found in the Transition Zone and can be collected along with your bike. You need to have your race number and wear wristband

All bags and bikes must be picked up on the race day during the designated hours.

Organizer is not responsible for bikes and bags not picked up after the designated hours.

Before entering Transition Zone (T2), there will be a penalty tent located. If you received a penalty from an official during the bike leg, proceed to the tent and serve your penalty.

COMPLETING IN A EVENT REQUIRES TRAINING ON A BIKE. TO BE FULLY PREPARED, IT'S IMPORTANT THAT YOU ARRIVE ON EVENT DAY HEALTHY, FIT, AND EQUIPPED WITH THE PROPER GEAR.
READ ON FOR AN ESSENTIAL CHECKLIST TO GET YOU READY FOR ANY TWO-WHEELED CHALLENGE.

1. IT STARTS WITH YOUR BIKE

Your seat and handlebars should be adjusted to the appropriate height and reach for you.

Ensure all bolts are tightened properly to avoid coming loose during the ride, and that your brakes and gears are working properly.

Keep your bike clean and your chain lubed.

Use front and rear lights when riding in low light conditions – this may be required by law in your area. Tires should be inflated to the recommended pressure.

2. LEARN THE BASICS

Practice clipping in and out of your pedals, as well as starting, stopping, and emergency braking.

If you're unfamiliar with shifting gears, practice doing this in a low-traffic area.

Practice riding a straight line, and cornering (right, left, U-turns).

3. SUIT UP

Always wear an approved helmet in training and racing. Helmets should fit properly without moving around on your head while riding, and remain buckled at all times during your ride.

Wear clothing that is designed to function in the weather you will encounter on the ride, and that will help maintain your core body temperature when riding in cold or wet conditions, even during a race.

Choose clothing that is visible in low-light conditions.

4. BE PREPARED TO RIDE

Carry the appropriate amount of water and nutrition, along with a way to purchase additional supplies if needed.

Know how to use a tire repair kit and appropriate tools, and be sure to carry them with you.

5. PLAN AHEAD

Always obey all traffic signals and signs.

Where available, ride in dedicated bike lanes and where other bikes are normally present to ensure vehicles are aware of you.

Select a ride distance appropriate to your fitness..

6. INFORM OTHERS

In the event of an incident, someone should know where you are riding. Always carry personal identification with you and emergency contact information.

Carry a cell phone for emergencies.

7. STAY ALERT

Leave the playlists and podcasts for indoor workouts. Don't use your phone while riding – pull off the road if you need to make a call or send a text.

Don't take photos and selfies while riding.

Look at the road and the riders around you, not your bike computer.

Be able to see and hear what is going on around you

8. OBEY THE LAW

Always stop at stop signs and lights. Remember, cyclists have the same responsibilities as vehicles.

Know the traffic laws for your area, especially those regarding riding two abreast or single file.

Know where the vehicles are around you and anticipate that drivers may not see cyclists.

When passing a parked car or another cyclist, make sure there is enough space to avoid contact.

9. COMMUNICATE

Use verbal and hand signals so others know if you are stopping or turning.

Make eye contact with drivers and other cyclists. Watch for hazards in the road including potholes, debris, or water bottles. Visually and verbally communicate with the specific volunteer in the aid station you will be taking from, letting them know you are taking aid directly from them.

10. SAFETY FIRST

Ride as far to the side of the road as safely possible. Some situations do require that you safely position yourself on the road so that traffic is unable to pass. This might be when making a turn or when not safe for vehicles to pass. Your hands should always be able to get to the brakes quickly.

Taking unnecessary risks might gain you a couple of seconds during your ride, but it could risk you losing your life. Always ride smart.

Be sure to check that you have all the necessary documents and visas to travel to the World Championship. It is your responsibility to check travel requirements before accepting the slot.

SLOT ALLOCATION

HOW DOES THE AGE GROUP SLOT ALLOCATION WORK?

- “Age Group” refers to a grouping of athlete peers based on their gender and age range. For example, ‘Male 25–29’ is one Age Group, and ‘Female 25–29’ is another.
- Your Age Group is determined by your age as at December 31 of the year of the event. For example, if you are Male and turn 25 in 2023 then your Age Group Category for any race in 2023 is M25 – 29.

THE SLOT ALLOCATION PROCESS

Before Race Day

- Each Age Group with registered athletes is tentatively allocated one slot each (an “Initially Allocated Slot”);
- All other slots available for the race (the “Proportionally Allocated Slots”) are not allocated until race day.

On Race Day

- If there are no starters in an Age Group, then that Age Group’s Initially Allocated Slot is removed and pooled with the Proportionally Allocated Slot;
- The Proportionally Allocated Slots are then distributed among all Age Groups based on the number of starters in each Age Group. This allocation is based on the ratio of athletes in each Age Group across both the male and female categories, ie, the more athletes in an Age Group, the more slot allocations they receive.

After the Race

Before Roll Down:

If there are no finishers in an Age Group that had one or more starters, then the Initially Allocated Slot for that Age Group is re-allocated, within the same gender, to the Age Group with the highest ratio of starters to slots.

During Roll Down:

If any slot allocated to an Age Group is unclaimed (after Roll Down for that Age Group is completed), then that unclaimed slot is re-allocated, within the same gender, to the Age Group with the highest ratio of starters to slots.

OTHER INFORMATION

Only Age Group Athletes are eligible to receive Age Group World Championship Qualifying Slots and/ or Extra Women’s Slots. Athletes holding current Professional or Elite status with any ITU Member National Triathlon Governing Body, WTC’s Pro Membership program or having raced as an elite athlete in any international events during the calendar year, are not eligible for Age Group Slots. Any change in an athlete’s status prior to any event participation or a qualified World Championship event must be disclosed to WTC immediately. Failure of the athlete to make such disclosure will be cause for disqualification from such event and may result in sanction from WTC Events.
